

Demand The Rhetech Advantage

Electronic Technicians – Semiconductor Industry

Rhetech, a capital equipment manufacturer in the semiconductor industry, is dedicated to rebuilding tools utilized in the wet-processing of wafers. We are currently in search of Electro-Mechanical Technicians for our Coopersburg PA facility. The scope of work includes but is not limited to electro-mechanical assembly, final testing, field installation, tool disassembly, sub-assembly of all mechanical components (pumps, valves, heaters and motors), plumbing (liquid and pneumatic), overall tool assembly, rewiring, component upgrades and troubleshooting.

Successful applicants must have a minimum of 5 years of electro-mechanical technician work plus a 2 year Electronics diploma or equivalent. Work in the Semiconductor or Pharmaceutical industry is a major plus. A demonstrated work history in a quality and process oriented environment is also required. Rhetech offers a competitive salary and benefit package. Interested and qualified applicants should forward their resume and cover letter to HR via fax at 610-282-0789 or email at hr@rhetechnic.com.
